

Michael Januszyk, MD

Stanford University

Michael Januszyk, MD, is a post-doctoral research fellow in the Dept. of Plastic and Reconstructive Surgery at Stanford University. His research interests are centered on applying computational techniques to develop novel approaches to problems in regenerative medicine. Michael received his M.D. from the University of Chicago Pritzker School of Medicine, and holds three B.S. degrees from the University of Illinois. He has received fellowships through the National Science Foundation (NSF), American Heart Association (AHA), and Sarnoff Cardiovascular Foundation. He is currently in the second year of his post-doctoral fellowship under Prof. Geoffrey Gurtner, MD, at Stanford University.
